

GLOBAL CAPACITY FROM AN **AEROSPACE** MARKET LEADER

Industry expertise

For over 65 years, we have been dedicated to addressing the insurance and risk management needs of the aerospace industry.

Our deep understanding of all segments of aviation-related insurance makes us an extremely valuable long-term, strategic partner.

Our technical expertise, safety and loss control services, global claims expertise and extensive handling of major losses enables us to be a leading market provider of aviation insurance solutions.

We have the Global capacity and network to address virtually any aviation related risk.

Products and Services

- **General Aviation:** We provide cost-efficient, innovative programmes and coverages to service the needs of corporate aviation operations, certain classes of commercial business and non-air-carrier served airports. Our comprehensive policies, along with our expertise, creativity and capacity enable us to address your aviation risk requirements.
- **Airlines:** With tailored coverage available for all segments of the airline industry including domestic airlines, regional airlines, charter airlines, cargo airlines, low cost carriers, public entities and start-up airlines, AIG is well positioned to adequately protect a company's assets and support its position as a market leading airline.

Aerospace Products Liability: AIG's dedicated products liability underwriting and claims teams understand the needs, technical aspects and risks that the customers in this segment are exposed to. We have the ability to underwrite exposures ranging from parts distributors to major aircraft manufacturers, helping insureds to safeguard not only their financial stability but also their reputation when claims occur.

- **Airports, Ground Handlers and Service Providers Liability:** AIG offers products and services tailored to cover the potential liabilities arising from the operation of an airport, private strip, or heliport, whether owned or operated, as well as the risk from ground handlers and service providers.
- **Space:** Underwriting space business is a challenging endeavour. Strong technical expertise is crucial in this highly specialist class and AIG delivers with a full understanding of the technical side of the manufacturing process. Underwritten from our London office, where AIG leads the market with our liability coverage, we are one of few insurers in the market who are able to offer launch +3 year, launch +5 year and launch +10 year policies, up to two years prior to launch.

Our coverage is individually designed for each satellite. Coverage features include:

- Launch vehicle and spacecraft transit and pre-launch
- Launch vehicle flight
- Launch, spacecraft commissioning and in-orbit
- Liability – pre-launch, launch and in-orbit third party liability

Aerospace Claims

Our global network services customers around the world. We believe that the key to successful claims handling involves the interaction of all parties. We work very closely with our appointed experts enabling us to deliver a more cost-effective service. Our claims professionals are trained to quickly and efficiently focus on providing the most comprehensive solutions possible.

Aerospace Safety and Loss Control

Our services are supported by industry-leading safety and loss control methods that range from detailed risk assessments and manual document reviews to safety programme management consulting and training. Drawing on our extensive experience in the aerospace industry, we work with customers to provide the best services for their type of operation.
